

STUDENT AND STAFF WELLBEING, SAFETY AND SECURITY PROCEDURES

1. Overview

The Student and Staff well-being, support and security procedures are available to the staff and students in Students Hub and Staff Hub.

In accordance with the Standards for Higher Education¹ and these procedures, students and staff are advised of the actions they can take, the staff they may contact and the support services that are accessible to them if their personal circumstances are having an adverse effect on their work, education or wellbeing. For students this includes the provision of timely and accurate advice on access to personal support services including learning support services, counselling, advocacy and welfare services². The College/Institute promotes and fosters a safe learning and work environment for all and advises students and staff on actions they can take to enhance their safety and security on campus and online. Where learning or work activities are conducted in a physical environment as opposed to a virtual environment the Institute provides procedures that cover immediate actions to be taken in the event of a critical incident and its management³.

2. Measures to enhance student and staff wellbeing

The following table details the types of information available to foster a safe and secure learning and work environment conducive to the wellbeing of all stakeholders.

Area of Wellbeing	Impacts	Safety &/or Security Measure	Documentation	Responsibility
