

2026 Yearly Planner CHS

- **Master of Health Management**
- **Graduate Diploma in Health Management**
- **Graduate Certificate in Health Management**

Please note:

This planner has been developed to assist students to plan their year's study. Not all units are offered in all trimesters or in all delivery modes (on campus; online). CHS reserves the right to cancel offerings if enrolments do not meet minimum class sizes.

Instructions:

1. Access your course structure on the [website](#); (click on your course then scroll down to 'course structure').
2. Tick off all units you have passed or received RPL for using the [Study Planner Tool](#) and look at the next units listed in the structure (generally you need to enrol in 2 or 3 units per trimester unless you have approval to take leave).
3. Next, check on the list below in which trimester they are offered and enrol in those at the first possible opportunity. Take note of units that have pre-requisites and ensure you complete these prerequisites as soon as possible.
4. For any questions about enrolment, please contact [Student Services](#).

✓	Offered during the trimester
-	Not offered during the trimester

Unit Code	Unit Name	Prerequisite(s)	Trimester 1/2026 availability	Trimester 2/2026 availability	Trimester 3/2026 availability
